Hi Frank,

Thanks for writing. We received numerous reports about hate content on your site, and after reviewing these reports, decided to remove your site from Google News. We do not allow articles and sources expressly promoting hate speech viewpoints in Google News (although referencing hate speech for commentary and analysis is acceptable).

For example, a number of the complaints we looked at on your site were found to be hate content:

We hope this helps you understand our position.

Regards,
The Google Team
